Balanced Scorecards and Operational Dashboards with Microsoft Excel

The name “balanced scorecard” comes from the idea of looking at strategic measures in addition to traditional financial measures to get a more “balanced” view of performance. The concept of balanced scorecard has evolved beyond the simple use of perspectives and it is now a holistic system for managing strategy.

Dashboards are intended to be operational. KPIs should be displayed in a balanced scorecard, and PIs should be reported in dashboards. A limitation with dashboards is that they do not communicate why something matters, why someone should care about the reported measure or what the impact may be if an undesirable declining measure continues.
